Experience

Acciojob | Software Developer Trainee Vadodara | October 2024 - Present

Gained hands-on experience in frontend development, focusing on building user-friendly web applications.

Strengthened skills in JavaScript, React, and modern UI/UX design principles during the internship.

Developed responsive and user-friendly web applications using React and JavaScript, improving load performance by optimizing UI components and managing state cliently.

Improved ability to design and implement engaging, high-performance web applications.

Internships

Skills:

Programming Languages: Html, Css, JavaScript, NodeJs

Libraries/Frameworks: React, Bootstrap

Tools / Platform: Git, Github

Database: MongoDB

Projects:

Google Sheets Clone | Link

HTML, CSS, JavaScript

- Developed a Google Sheets clone with a dynamic, editable grid using HTML, CSS, and JavaScript.
- Implemented grid-based structure to support user interaction, data entry, and real-time updates.
- Designed a responsive UI with CSS to ensure seamless usability across different screen sizes.
- Utilized JavaScript event handling for smooth cell editing and data manipulation.

Youtube Clone | Link

HTML, CSS, JavaScript

- Developed a YouTube clone with a responsive UI using HTML, CSS, and JavaScript.
- Implemented a dynamic video grid layout to display video thumbnails and titles.
- Designed an interactive search bar for filtering videos based on user input.
- Created a sidebar navigation menu for easy access to different sections.
- Utilized JavaScript event handling to simulate video playback functionality.

Spotify Clone | Link

HTML, CSS, JavaScript

- Developed a Spotify clone with a sleek and responsive UI using HTML, CSS, and JavaScript.
- Implemented a dynamic music player interface with play, pause, and next/previous track controls.
- Designed an interactive playlist system to allow users to browse and play songs.
- Created a sidebar navigation for easy access to library, playlists, and search functionality.
- Utilized JavaScript event handling to manage audio playback and UI interactions.

Blinkit Clone | Link

HTML, CSS, JavaScript, Bootstrap

- Developed a Blinkit clone with a responsive and modern UI using HTML, CSS, JavaScript, and Bootstrap.
- Implemented a dynamic product catalog with categories, search, and filtering functionalities.
- Designed an interactive cart system to allow users to add, remove, and update items.
- Created a seamless checkout process with order summary and user authentication (if applicable).
